# DEPARTMENT OF THE INTERIOR

## INFORMATION SERVICE

### FISH AND WILDLIFE SERVICE

For Release to the PM's OF MONDAY JULY 2, 1945.

The nation's millions of fishermen who are now swinging into action with rod and reel can find the answers to their queries about the open seasons, the daily limits, size limits, and license costs of game fishing from Alabama to Wyoming in a new publication issued by the Fish and Wildlife Service of the United States Department of the Interior.

Summary of the Game Fish Laws for 1945 has been compiled by the Service for the information of game and fishery authorities as well as anglers. In addition to the state laws, this synopsis contains a list of the offices from which special regulations can be secured governing local waters and methods of taking fish, such as types of lures which can be used, hours that fishing is permitted, methods of ice fishing, creel and size limits.

The new leaflet may be obtained without cost upon request to the U.S. Fish and Wildlife Service, Chicago 54, Ill.
